Simplified Products – Simple Solutions

Term insurance is one of the simplest life insurance products available. It allows you to purchase larger amounts of coverage in a cost-effective way. Simply put, it’s pure coverage – you pay a premium; your beneficiary receives the benefit.

At United Home Life/United Farm Family Life, we’ve made it simple to purchase affordable term life insurance coverage without undergoing medical exams or providing bodily fluids for lab tests, even if you’ve been turned down before. We know simplified issue life insurance – it’s all we do. Just complete a short application with yes/no health questions, and participate in a brief personal history interview by phone.

It’s that simple.

Simplified Issue Term Life Portfolio

Each of our simplified issue term products* is designed to cover a range of individuals based on age, tobacco usage, and health, and has these features:

• No routine medical exams, blood work¹, or physician’s statements.
• Guaranteed level premiums for the length of the initial term period.
• Guaranteed renewable coverage.²
• Coverage that can’t be cancelled so long as premiums are paid.
• Riders and benefits that can help tailor these products to your particular needs.*

Simplified Underwriting

Simplified issue life insurance products mean simplified underwriting. Instead of a medical exam or bodily fluids¹ testing, we utilize a personal history interview (PHI) in conjunction with your application. A PHI is a short telephone interview that helps us determine if the product you’ve applied for is the right fit. You’ll speak with an experienced underwriter who will ask you some health questions and who will verify information provided on the application, typically about 15 minutes. Just relax and be forthcoming in your responses.

Once we receive your application, we’ll start the approval process. We’ll work closely with your agent to ensure your coverage is issued as quickly as possible. Your agent is a trusted resource - if you have any questions about your application, the product applied for, or the coverage applied for, be sure to let your agent know.

¹Availability of, and benefits payable under, the insurance products described are subject to state availability, state variations, restrictions and eligibility requirements. If there are any discrepancies between the product description and the issued insurance policy, the issued policy shall take precedence.

²Oral fluids/HIV testing collected by a paramed is required for WI applicants.
